*Promotional rate requires a 12-month contract. Early termination fees apply. Price of \$49.95 remains during the initial 12-month contract period after which the price will increase to \$59.95. This offer applies to new and existing customers and requires both Lakefield local and long distance service. Nationwide calling is for residential voice service only. If, in our opinion, usage is deemed excessive and not consistent with a normal residential voice application, commercial facsimile or auto dialing, permanent call forwarding, three-way calling, resale, telemarketing, or any other non-residential uses, Lakefield may immediately suspend, restrict or cancel your service without prior notice. All long distance minutes are for the continental United States. High-Speed internet is dependent upon your location and equipment and speeds may not be attainable or consistent in certain areas. Price does not include fees for 911, USF, state and local taxes or other FCC mandated charges. Please visit our business office at 2205 Forest Ave in Two Rivers or call our office 553-2211 for additional information.
